

PTSA Offers Math/Science/Technology Scholarships to West Irondequoit Jr. and Sr. High Students

The West Irondequoit Central PTSA is offering students at Dake Junior High and Irondequoit High School an opportunity to earn a scholarship to pursue further learning in the math/science/technology area. We wish to encourage students to investigate independently the area of math, science or technology that appeals to them and to pursue it with enthusiasm

This scholarship may be used for a camp, a conference or seminar but must be related to the sciences. The activity should take place during the summer of 2009 and may not conflict with school attendance, unless sanctioned by the district.

Each scholarship will cover the tuition or entry fee up to \$100.00. Checks will be issued payable to the activity sponsor. We recommend that applicants register for the program of their choice, paying the program amount less \$100 so that they secure a space. Scholarship recipients will be notified by May 20, 2009.

A wide variety of programs fulfill the math/science/technology requirement. Many are offered by local universities, colleges and museums, but the offer is not limited to these organizations. We have attached a list of programs that qualify for the scholarship, but you need not limit your selection to this list.

Dake and high school students who would like to participate in a math/science/technology program this summer may apply for the scholarship using the "WICPTSA Math/Science/Technology Scholarship 2009" application form. This may be found on the PTSA Web site: www.WICPTSA.org. or at the child's school. A recommendation by a math, science or technology teacher is required. The student information and the accompanying paragraph **MUST BE** handwritten by the applicant.

Applications must be postmarked by Friday, May 1, 2009. Please complete the form in full and mail to Holly-Hammond Streb, 175 Sachem Way, Rochester, New York 14617. Questions may be directed to Holly @ 467-9153, hhstreb@rochester.rr.com or to your child's math/science/technology teacher.

Math/Science/Technology Scholarship Application

Students at Dake Jr. High School and Irondequoit High School are eligible this year, 2008-09, for a PTSA math/science/technology scholarship. This scholarship will be awarded to six students. Only programs in math/sciences/technology disciplines or the application thereof will be considered. This does not include sports or music programs.

The recipients will be chosen on the basis of their interest in and enthusiasm for pursuing additional learning in the fields of math, science or technology.

Please fill out this application completely and accurately. Incomplete applications will not be considered. **The student must hand-write all information.** A parent/guardian signature is required. A math/science/technology teacher recommendation must be available for applications to be considered as well. They may be sent separately.

Student's name: _____ Grade in 2009-10 _____

Address: _____

Phone number: _____ e-mail: _____

Parent/guardian name (please print): _____

Parent/guardian signature: _____

Program/camp of interest: _____

Location of camp: _____

Program cost: _____

Teacher who will provide recommendation: _____

Applications must be postmarked by **Friday, May 1, 2009**. Please mail to:

175 Sachem Way
Rochester, NY 14617

Please complete the reverse side/2nd page.

Teacher Recommendation

Please fill out this page and give it to the teacher who will be writing your recommendation.

_____ will be attending _____
student name name of program

sponsored by _____
name of institution or organization

He/she is applying for a Math/Science/Technology Scholarship from the West Irondequoit Central PTSA. A teacher recommendation is an integral part of the scholarship application process. We would appreciate receiving your recommendation by May 1, 2009.

Please tell us how long you have known the student and how you think this program might benefit them. How will this program build on the student's interest in math, science or technology? What interests and or talents has he/she exhibited that would suggest a future involving these areas? What qualities will the student bring to the program?

Contact Holly Hammond-Streb, WICPTSA, @ hhstreb@rochester.rr.com or 467-9153 with any questions.

Please send your recommendation to:

hhstreb@rochester.rr.com
or
