

# Fins!

## DID YOU KNOW...

- ◆ Sharks bodies are covered with special teeth-like scales called dermal denticles!
- ◆ The Swell Shark will swallow large amounts of water, growing its body to twice its size to protect itself from predators!
- ◆ At the beach, you are more likely to be struck by lightning than be bitten by a shark!

Join us after school at Helmer Nature Center  
and learn more amazing facts about the
