September 28, 2020

Dear West Irondequoit Learning Community,

This letter is to inform you about a new positive COVID-19 student case, a Dake Junior High School student, reported today by the Monroe County Department of Public Health (MCDPH). The student has not physically attended a school building this school year and is being isolated.

Based on its investigation, the MCDPH has determined that the student contracted the virus outside of school. At this time, contact tracing is complete, and the MCDPH has contacted anyone who could potentially be at risk of exposure to this student. If you or your child were not contacted, there is no risk of exposure. As you know, we cannot disclose any more details or personally identifiable information per federal privacy laws.

As in past communications, I urge families to remain diligent outside of school and in the community. Continue to practice the recommended State Department of Health safety measures and track your symptoms daily. That includes limiting the amount of people you are around in group gatherings. If you experience health symptoms not typical to you, make sure to swiftly report them to your health care provider and initiate a precautionary quarantine.

Please direct any questions about potential exposure, testing, contact tracing or quarantining to the MCDPH. Call (585) 753-5555 or email COVID19@monroecounty.gov.

Thank you,

Aaron R. Johnson, Ed. D
Superintendent of Schools
